

Abdul Basit

Full Stack Developer (React • Node.js • Express • MongoDB)

03242742092 | abasit20062006@gmail.com | github.com/Abdul-Basit-cmd | abdulbasitdev.netlify.app

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on Frontend Developer Internship experience and a strong foundation in React.js and JavaScript, gained through building and shipping multiple real-world e-commerce and API-driven projects. Skilled in developing responsive, reusable UI components and integrating REST APIs. Actively expanding into backend development with Node.js, Express.js, and MongoDB to deliver complete MERN stack solutions. Seeking a MERN Stack Developer role to contribute practical development skills and grow within a collaborative engineering team.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C#, PHP

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Angular, Axios, Vite

Backend: Node.js, Express.js, ASP.NET Core (Beginner), Laravel

Databases: MongoDB, MySQL, SQL Server

Tools & Other: REST APIs, JWT Authentication, Git, GitHub

PROFESSIONAL EXPERIENCE

Frontend Developer Intern

Fossporus • March 20, 2026 – July 1, 2026

- Developed responsive, mobile-friendly user interfaces using React.js and Tailwind CSS, improving usability across devices.
- Converted UI/UX designs into reusable, modular React components to streamline development and maintainability.
- Integrated REST APIs to connect frontend components with backend data, ensuring smooth data flow across the application.
- Collaborated with team members in an agile environment to plan, build, and deliver frontend features on schedule.
- Improved application responsiveness and performance through component optimization and code review.
- Used Git and GitHub for version control, branching, and collaborative code management.

PROJECTS

Weather App | React, Tailwind CSS, Vite, API Integration

- Built a responsive weather application that fetches real-time weather data from a public weather API based on user-searched city input.
- Designed an intuitive, mobile-friendly interface displaying current weather conditions with clear data visualization.
- Implemented API integration and asynchronous data handling to ensure fast, reliable weather updates.

FreshCart – Grocery E-Commerce App | React, Tailwind CSS, Vite

- Developed a full-featured grocery e-commerce application with product browsing, filtering, and shopping cart functionality.
- Built reusable, responsive React components to deliver a smooth and consistent user experience across devices.
- Structured application state and component architecture to support scalable feature additions.

Forever – Shopping E-Commerce App | React, Tailwind CSS, Vite

- Built a modern e-commerce web application featuring product listing pages, shopping cart, and responsive layouts.
- Designed clean, reusable React components to maintain UI consistency and reduce code duplication.
- Focused on responsive design principles to ensure a seamless experience across mobile and desktop devices.

EDUCATION

Bachelor's in Software Engineering — Starting 2026

Advanced Diploma in Software Engineering — Aptech, Karachi (In Progress)

Intermediate — Completed
